

Alberto Orte

Rioja Crianza Calma

ORIGIN

Spain, Rioja, Hormilla

WINE TYPE & VARIETIES

Still red, with Tempranillo

SOIL

Red thin clay and sandy limestone soil

AGE OF VINES

Around 20-35 years old

VITICULTURE

Practicing organic

VINIFICATION

The wine is made using 15% whole cluster maceration. 85% of the bunches are de-stemmed and crushed. The must is macerated for seven days at cool temperatures. It is then fermented in open-top stainless steel tanks for 15 days at 84F to extract more flavor and tannin, followed by a post-fermentation and extended maceration for seven days. The goal with these vinification methods is to make a wine of longevity. The wine is aged for 16 months in oak barrels, 90% French and 10% American

It's hard not being fascinated by Alberto Orte — a man who is creating Spanish wine history through history, who is creating the future Spanish wine map through looking back in time. Alberto is without a doubt one of Spains most interesting winemakers.

Alberto grew up in Madrid where he also attended law school. During his time there an interest for wine emerged, perhaps sparked on one of his trips down to Cádiz where Alberto had family working with wine. Eventually Alberto earned a diploma in oenology, in that way continuing his family's wine legacy, whom have been wine producers since the late 1800's. Today Alberto lives with in Cádiz. This is one of the regions Alberto grows vines but he also does so in Valencia, Rioja, Galicia, and others.

Alberto is involved in many wine projects around Spain and wherever he goes the idea is the same. To create genuine wine of the land where it grows, and to the history part, of grapes that are indigenous to the place. All through respecting nature, practicing organic farming and sensible, hands-off winemaking. Alberto dedicates much of his time researching Spanish wine history through documents, writings and the memory of older generations. Especially one iconic piece of Spanish wine literature has proven to be very valuable: Simon de Rojas Clemente y Rubios documentations about varieties and their characteristics in Jerez from 1807. The examples of Alberto's fascinating work are many and equally unique.

Ever since Alberto set out on his mission he has been in search of truly great vineyards, sites that out-perform and gives the potential of producing the best wine in a given region. This work has involved identifying indigenous varieties and old vines grown organically in balanced, low-yielding, soils. Alberto is today one of the main figures and one of only a handful producers, as the likes of Raúl Pérez and Envinat, taking care of the old viticultural heritage Spain has; saving old varieties, recuperating old vineyards/regions as well as making wine based on terroir/site rather than blending them all together. These people are in the forefront of bringing Spain into a new (or old so to speak) era of wine.

Calma is a single vineyard, small production Rioja from a high-altitude, limestone parcel planted to 100% Tempranillo. The wine shows extraordinary depth, beautiful integration of tannins and balancing acidity in the raw materials give this wine excellent potential for aging.
